1. HEADSPACE PURPOSE

To build the resilience of young people and the future potential of Australia by delivering effective youth mental health services in partnership with young people, their families and their local communities.

2. HEADSPACE VALUES

It is a requirement of all **headspace** positions that work will be undertaken in line with the **headspace** values as follows:

- Innovative We have the courage to explore new ideas and take new approaches
- Collaborative We bring the right people together to get the best result
- Inclusive We respect and value diversity and believe everyone counts
- Achieve We are responsive to community needs and deliver on expectations
- Passionate We are dedicated to making a difference in the lives of young people and their families

3. POSITION SUMMARY

eheadspace Clinicians provide online mental health services to young people and their families, including: screening; assessment; delivery of brief psychological interventions; and information and referral to face to face services. Clinicians work within the **eheadspace** clinical model, maintain appropriate clinical records and contribute to the review and development of **eheadspace**.

4. POSITION CONTEXT

eheadspace combines online and telephone support to young people and their families and translates mental health professional services into a telephone and online environment.

The role requires a health professional with qualifications and experience in assessment and treatment of mental health and other related issues for young people, in one of the following areas: Social Work, Occupational Therapy, Mental Health Nursing or Clinical or Counselling Psychology.

eheadspace clinicians form part of a multi-disciplinary team and report to a Clinical Coordinator. Clinicians receive clinical guidance and instruction from Senior Clinicians. Alongside these senior staff, the **eheadspace** clinician participates in the maintenance of a responsive and respectful workplace culture. The **eheadspace** clinician will be expected to integrate the **headspace** values into their routine clinical work.

5. KEY RESPONSIBILITIES/OUTCOMES

- Apply evidence-based treatments and best practice standards online and via telephone as required
- Undertake online screening assessments with young people, and their families
- Deliver brief psychological interventions as defined by the online model
- Provide referral to and liaise with face-to-face service providers
- Support young people to attend face-to-face services
- Maintain appropriate clinical records and data requirements
- Contribute to a range of shift times to support service delivery outside of business hours.
- Participate in the ongoing planning, development and implementation of eheadspace services within headspace
- Attendance and active participation in a minimum of one eheadspace team meeting annually.
- May be required to provide specialist support as needed to portfolio areas
- Fulfil shift requirements and other duties consistent with position as directed by Senior Clinician, Clinical Coordinator or eheadspace management

6. SELECTION CRITERIA

The following criteria must be met for consideration as a successful applicant:

6.1 Essential

- Approved tertiary qualification in an allied health discipline, including social work, psychology (clinical, counselling, and 4+2 pathway), mental health nursing, and occupational therapy
- Eligibility for membership of an appropriate professional body. Social workers are required to be eligible for full membership with AASW. Psychologists, mental health nurses, and occupational therapists are required to have full registration with AHPRA
- Proven through to advanced clinical skills in the area of working with young people
- Experience in the provision of mental health care, including completion of mental health assessments, crisis intervention, psychoeducation and short term treatment interventions to young people experiencing mental health difficulties
- Strong working knowledge of the common mental health issues faced by young people, indicated treatments for high prevalence disorders (such as CBT for mood and anxiety disorders) and the literature underpinning such approaches
- Highly developed and demonstrable interpersonal and communication skills (written and verbal) as well as demonstrated abilities in problem solving and negotiation
- Proven ability to engage with and provide services to young people
- Self-motivated and with the ability to operate autonomously when required
- Knowledge and understanding of relevant legislation, policies and strategic directions of mental health services and literature on early intervention models for young people experiencing (or at risk of) a serious mental illness

- Appreciation of and/or ability to demonstrate a commitment to the development of integrated clinical research and evaluation
- Willingness and/or demonstrated to commit to ongoing professional development;
- Computer literacy particularly in the effective use of Microsoft office and related programs

6.2 Desirable

• Experience with online service provision

7. POLICIES AND WORKPLACE PRACTICES

headspace employees are responsible for and are to commit to:

- Consistent, respectful behaviour towards the organisation, colleagues and premises
- Acknowledging and abiding by the headspace values, policies and procedures
- Encouragement of oneself and colleagues to comply with headspace OH&S policies and procedures
- Be respectful of the objectives and philosophy of the organisation
- To act in a safe and responsible manner at all times
